

NGS Super Investment Performance Summary

To 30 September 2026 Income account

Returns on income account (pension) investments are tax free. Income account investment returns will exceed equivalent (taxed) super investment returns in periods when investment earnings are positive. In periods when investment earnings are negative, super returns will exceed equivalent income account returns. A negative return (loss) means that less tax is payable on taxed super investments than has already been accrued, so there is a tax adjustment that can be credited back to accumulation members. There is no equivalent adjustment for income account members because income account returns are tax free.

The above table shows the net return after investment fees and tax. For returns covering periods before 1 November 2025, these are also net of the asset-based administration fee.

We recommend that you seek financial advice before making any changes to your investment strategy. In particular we recommend that you seek financial advice before making any short-term changes to your long-term investment strategy. Investment returns are not guaranteed as all investments carry some risk. Past performance is not necessarily a guide to future performance.

On 1 October 2026, the High Growth option was renamed Growth and the Indexed Growth option was renamed Indexed Diversified. These updated names have been applied to the Investment Performance Summary table.
